OEG

Operational Excellence
Since 2002

A Proficient Operations & Maintenance Company
in the field of Power and Process Industries

INTRODUCTION

The demand for power generation in India has been increasing quite rapidly due to the growth of various industries, increased use of electricity for irrigation and rural electrification. Many industries have opted for their own power generating units at reduced generating cost to enable their products to compete in the market. Industries prefer to concentrate in their core business and would like to outsource the operation and maintenance of power plants to reliable operators. We at M/s OEC India Pvt. Ltd. associate ourselves with such customers to ensure availability of power at reduced costs with trouble free operation. Currently, we are operating **3500MW** with technically skilled manpower strength of **2800** personnel all over India.

Having established and respected for Operational Excellence in India, OEC is poised to grow internationally.

PHILOSOPHY

OEC is dedicated to provide customers with the most advanced proactive, reliable, basic, value added services and solutions available in the Industry in a professional, timely and cost effective manner with safety as the key overriding concern.

- ⚡ Power Plant Operation and Maintenance
- ⚡ Power Plant start- up / commissioning services

OEG ACHIEVEMENTS

Appreciation and Awards for Best Service Provider, Safest Contractor, House keeping from our clients such as Sterlite - Tuticorin, Ultra Tech Cement Limited - Andhra Pradesh and MALCO.

OPTRA OEG POWER ENGINEERS TRAINING ACADEMY

OPTRA offers excellent opportunity for fresh graduate engineers to get trained as Power plant professional. The intensive plant training follows class room lectures by power plant veterans with vast field experience and academic credentials.

The training curriculum, both intensive and comprehensive includes 'SIMULATOR' training incorporating real life dynamic and complex changes which call for immediate and accurate responses from the trainees. The trainees get to have the exciting and knowledgeable feel of the real plant operations sitting in the simulator room at OPTRA centre, Chennai.
